**DEPARTMENT OF THE INTERIOR**

**Bureau of Ocean Energy Management**

**[OMB Number 1010-0181]**

**Information Collection: Southern Alaska Sharing Network and Subsistence Study;**

**Proposed Collection for OMB Review; Comment Request**

**ACTION:** 60-day notice.

**SUMMARY:** To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) pertains to conducting a survey in Alaska, “Southern Alaska Sharing Network and Subsistence Study.”

**DATES:** Submit written comments by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

**ADDRESSES:** Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Arlene Bajusz, Bureau of Ocean Energy Management, 381 Elden Street, HM-3127, Herndon, Virginia 20170 (mail); or [arlene.bajusz@boem.gov](mailto:arlene.bajusz@boem.gov) (email); or 703-787-1209 (fax). Please reference ICR 1010-0181 in your comment and include your name and return address.

**FOR FURTHER INFORMATION CONTACT:** Arlene Bajusz, Office of Policy, Regulations, and Analysis at (703) 787-1025. You may also request a free copy of the study description.

**SUPPLEMENTARY INFORMATION:**

**OMB Control Number:** 1010-0181.

**Title:** Southern Alaska Sharing Network and Subsistence Study.

**Abstract:** The Bureau of Ocean Energy Management (BOEM), under the Department of the Interior (DOI), is the Federal administrative agency that conducts OCS lease sales and monitors and mitigates adverse impacts that might be associated with offshore resource development. Within BOEM, the Environmental Studies Program implements and manages the responsibilities of research. This study will facilitate the meeting of DOI/BOEM information needs on subsistence food harvest and sharing activities in various coastal Alaska areas.

Planning areas for potential resource development in Alaska can include large geographic areas with diverse, abundant, and environmentally sensitive resources. Within these areas, the DOI's Proposed OCS Oil and Gas Leasing Program considers that there will be an oil and gas lease sale in the future. These proposed sale areas or adjacent areas support major productive commercial and subsistence fisheries, provide habitat to numerous marine mammals, and are a significant migration and staging area for internationally important waterfowl. Numerous communities in the State of Alaska rely heavily on subsistence fisheries.

This study assesses the vulnerabilities of several coastal communities in southern Alaska as to the potential effects of offshore oil and gas development on subsistence food harvest and sharing activities. It investigates the resilience of local sharing networks that structure contemporary subsistence-cash economies using research methods that involve the residents of these communities most proximate to the future sale area(s).

The BOEM will use the information collected to gain knowledge about local social

systems that will help shape development leasing strategies and serve as an interim baseline for impact monitoring to compare against future research in these areas.

Without this data, BOEM will not have sufficient information to make informed leasing and development decisions for these areas.

*Survey Instrument:* The research will be collected from a survey administered to each head of household in the communities to collect information about the subsistence (harvest data) and sharing networks of the communities. The information under this collection will be obtained through personal interviews that are voluntary.

*Interview Methods:* The interviews for each study will be conducted in person in a setting most comfortable for the respondents. This personal method is more expensive and time consuming for the researchers, but these drawbacks are outweighed by improvements in the quality of information obtained and the rapport established.

Telephone interviews have not been successful in rural Alaska. Each respondent will be paid an honorarium for taking part in the study. Responses are voluntary and confidential.

**Frequency:** One-time event for each study.

**Description of Respondents:** Approximately 128 respondents from Alaska coastal communities.

**Estimated Reporting and Recordkeeping Hour Burden:** The currently approved annual reporting burden for this collection is 192 hours. We estimate each survey will take about 1.5 hours.

**Estimated Reporting and Recordkeeping Non-Hour Cost Burden:** We have identified no non-hour cost burdens for this collection.

**Public Disclosure Statement:** The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

**Comments:** We invite comments on: (1) whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (4) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

**Public Availability of Comments:** Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
